EXPERIENCE

Stratpoint Technologies – Mandaluyong, NCR | Hybrid

Solutions Designer

Aug 2025 – Present

- Translate complex business needs into clear solution designs, ensuring alignment between client goals and engineering execution.
- Collaborate with Solutions Architects to design end-to-end technology solutions that address client-specific business challenges.
- Scope projects with pre-sales teams and stakeholders, evaluating technical feasibility and delivering tailored proposals.

Solutions Designer Cadet

Sep 2024 – Aug 2025

- Completed a rotational cadetship spanning Software Development, Business Analysis, Quality Assurance, and Project Management, building end-to-end delivery expertise.
- Developed foundational competencies in solution architecture and business analysis, earning promotion to Solutions Designer.

University of the Philippines Open University – Remote

Frontend Web Development Intern

Jun 2022 – Sep 2022

- Built a web interface for live exam tracking, enabling faculty to monitor remote students in real time and uphold academic integrity during online classes.
- Collaborated with cross-functional teams to develop responsive university platform interfaces, translating design mockups into functional, interactive pages.

CERTIFICATIONS

Professional Scrum Developer™ I (PSD I) – Scrum.org | Jan 2025

KEY PROJECTS

Zoomy Treats – Startup E-Commerce Platform | *Shopify Hydrogen, Headless Commerce* | 2026

- Led the end-to-end development of a headless e-commerce website for a pet food startup, from storefront build and product catalog setup to checkout integration and deployment.
- Leveraged AI-assisted development tools (Claude Code) to accelerate delivery, demonstrating practical competency in AI-augmented engineering workflows.

Poultry Counting App – Object Detection | *Python, Kotlin, YOLOv8* | 2024

- Built an individual thesis project that automates poultry inventory via a YOLOv8 model integrated into an Android application for real-time on-device counting.

COVID-19 Health Monitoring App | *Flutter, Firebase Auth, Cloud Firestore* | 2023

- Developed a cross-platform mobile application for symptom logging and health record tracking, supporting the safe resumption of face-to-face classes during the pandemic.

EDUCATION

BS Computer Science – University of the Philippines Los Baños (UPLB) | Aug 2024

TECHNICAL SKILLS

AI-Assisted Development: Claude Code, Cursor

Cloud & Architecture: Amazon Web Services (AWS), Solution Architecture, System Design

Methodologies: Agile/Scrum, Business Analysis, Quality Assurance, Project Management

Web & Commerce: Shopify Hydrogen, Headless Commerce, JavaScript, HTML/CSS

AI/ML: YOLOv8, Python, Object Detection

Mobile: Flutter, Kotlin, Firebase, Cloud Firestore

Tools: Git, Figma, Android
